HOW DOES A CLINIC WORK?

You can speak directly with an attorney or supervised volunteers/law students, FOR FREE after you fill out an intake form. They will review your case and explain options for erasing conviction information.

WHAT IS... EXPUNGEMENT?

Expungement erases something from a record completely, as if it never existed, for cases you were not found guilty.

PARDON?

A pardon is forgiveness from the Governor for cases you were found guilty and erases those convictions. The process is now much easier -- more than 80% who apply are granted a hearing with support from PLSE.
